

WHAT'S ODD ABOUT THE ODD EGG

POKEMON3D ODD EGG SPRITES

What's unique about the Odd Egg in Pokémon 3D?

There are 7 hatchable Pokémon, all from the baby group...
 Smoochum, Pichu, Cleffa, Igglybuff, Elekid, Magby, and Tyrogue.
 ... and there is a 14% chance the hatched Pokémon will be shiny!
 The shiny eggs have a different color than the normal eggs,
 but they can be hard to tell apart. That's why this exists!
